www.maxboostpower.com

Therapy Bearing (Pre-installed)

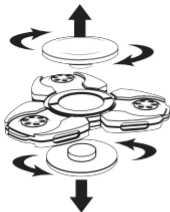

*Produces soothing sounds,
suited for those who need
therapeutic spins*

Performance Bearing

*Produces silent spins, suited for
those who want longer and
higher performance spins*

FLIP TO LEARN HOW TO SWAP BEARINGS

1. Remove the center cover by rotating top and bottom pieces against each other to expose the bearing.

2. Use the included tool or a Quarter coin to unscrew the central frame and swap the bearing between the two central pieces.

3. Assemble back the central frames and covers by reversing step 1 and 2.
