

# INSTALLATION GUIDE **maxboost** Vibrance for iPhone 7 PLUS

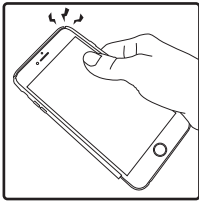

## How To Install (With the iPhone)

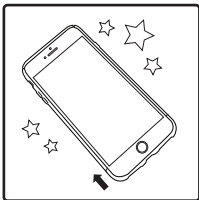

1. Slightly push out the frame of the top piece with your thumb, and then gently pull the bottom piece in an outward direction.

2. Slide your phone into one of the corners.

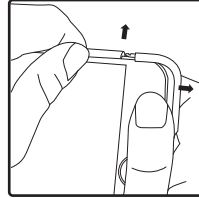

3. Snap in the other side of your phone into the case.

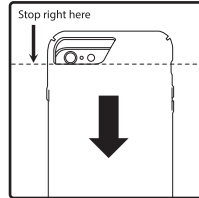

4. Attach the bottom piece back together.

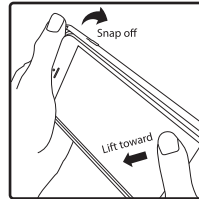

## How To Uninstall (With the iPhone)

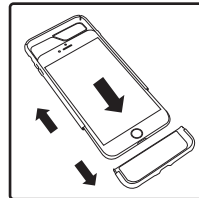

1. Slightly push out the frame of the top piece with your thumb, and then gently pull the bottom piece in an outward direction.

2. Then, turn your case to the back and slightly slide your phone down until the camera lens meets- the bottom of the camera hole.

3. Place your thumb on the top portion of the case and push the case away from your phone (*Installing over a table is recommended*).

4. Remove your phone and attach the 2 pieces back together.
